

ACAI BROS.™

Investment Opportunities

Inline Store 2022-23

INVESTMENT OPTION 1

INLINE CONCEPT

The NEW Acai Brothers in-line concept is the largest of our footprints averaging a store size of aprox 40-60sqm. This concept has been developed with the aim to bring the Acai Brothers brand and product to a larger demographic of consumer and allow a more streamlined approach to function-ability and management of the brand for franchisors and franchisees alike.

Running off our full menu which consists of acai bowls, smoothies, juices, coffee and warm menu, this concept holds itself perfectly to larger volume locations, focused on the ability for both takeaway

and substantial space for indoor dining, without the need for a super large footprint or increased people power in comparison to other concepts.

The aim of this solution is to provide an easy to manage, easily transferable model, with the flare and strong branding of the Acai Brothers franchise. With the option to purchase multiple units, in-house training, systems and marketing provided, this is an extremely strong hospitality-based investment for anyone wanting a turn-key solution they can expand internally.

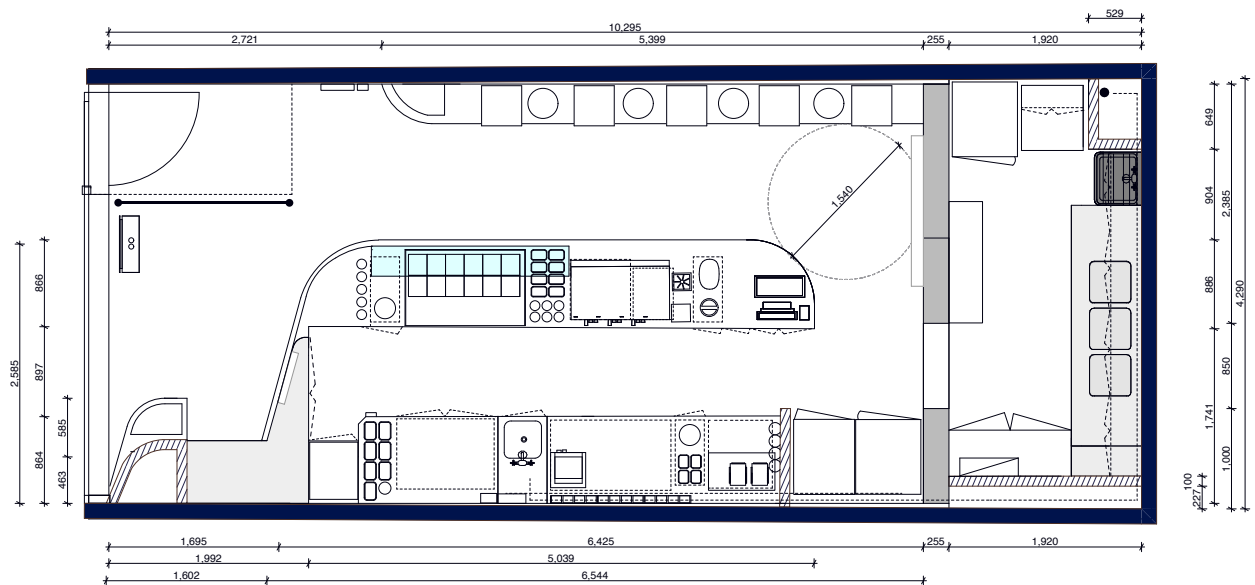

Points of difference

Ordering app, Table ordering through app, low initial investment, small footprint, takeaway and dine in, full menu.

25-30sqm minimum store size
